

# SET YOUR HUDDLE ROOMS UP FOR SUCCESS

LET'S FACE IT, WORK HAS EVOLVED.

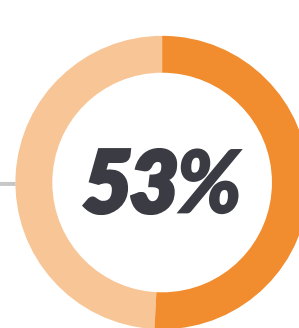

**OVER 70%**

OF OFFICES IN THE UNITED STATES HAVE IMPLEMENTED AN OPEN CONCEPT FLOOR PLAN.

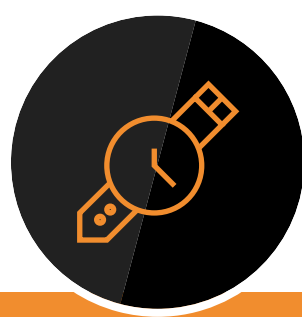

of meetings involve two to four people

BUT

of conference room space is built for meetings of seven or more.

40% OF WORKERS ESTIMATE THEY WASTE UP TO...

30 MINUTES EVERY DAY LOOKING FOR A PLACE TO MEET.

## WHAT ARE HUDDLE ROOMS?

Huddle rooms are small workspaces commonly used for ad-hoc meetings. But even though innovative, intelligent meeting tools are changing work for the better, many of these spaces remain audio-visually challenged – creating an imbalance between the tools we use and where we use them.

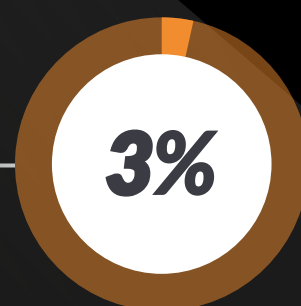

There are approximately

huddle rooms globally...

BUT

less than

are video-enabled!

THAT WON'T CUT IT FOR LONG!

Huddle room meetings will grow exponentially from 8% today to almost 70% of all meetings by 2022.

8% ..... > ..... > ..... > ..... > 70%

## HUDDLE ROOMS WITHOUT THE RIGHT TECHNOLOGY: NOT A PRETTY PICTURE

reported having problems with their existing huddle room hardware, such as being unable to hear or see ideas being shared and other technical issues.

## FUTURIZE YOUR MEETING SPACES WITH GOTOROOM AND DOLBY VOICE

### IT'S TIME TO PUT THE INTELLIGENCE BACK IN YOUR COLLABORATION.

GoToRoom and Dolby Voice work together to provide a captivating way for all attendees to collaborate as if everyone were in the same small to medium-sized room. Running on Dolby's world-renowned audio and video hardware, GoToRoom sessions are instantly enhanced with revolutionary features that adapt to meeting needs.

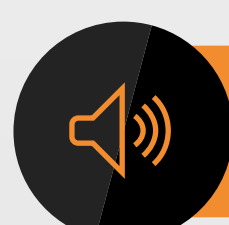

#### VIDEO

**Attendee framing**  
keeps the action front and center.

**Whiteboard view**  
tracks ideas as they are being written.

**High-dynamic range video mapping**  
adjusts to difficult lighting.

#### AUDIO

**Full-room pickup**  
catches voices from every corner.

**Dynamic leveling**  
ensures sounds are even evenly distributed.

**Voice placement**  
pinpoints where sounds are coming from.
